

Dear Friends, Colleagues and Students,

What good is knowledge if you don't share it? Two of my colleagues on the Biomimicry Education Advisory Board have taken it upon themselves to create THE journal for biomimicry. It's a gorgeous hyper-informative game changer as a tool for you to create a better world. I use it now to inform our class work at Lipscomb and am happy to say I've worked with a number of the folks in the magazine by whom I'm constantly humbled. I hope you can find elements and information in it to help you help our world!

ZQ2 is now available and can be found at: zq.sinet.ca (Come into Marjan and Tom's sense of humor with the journal title which imitates a culturally iconic magazine while actually being short for Zygote Quarterly - the ultimate connection to what makes life!)

Best to all,

Margo
